### Section II:

#### Program Update

Giving shops an update of what's going on in your auto, diesel, or CTE program is valuable in helping to get your program exposure. These updates go to a much wider audience on WrenchWay and can encourage local shops to follow your school on School Connect and more readily receive information about your needs.

Please enter a brief update of what's going on in your program (i.e., New curriculum items, upcoming events, student projects, number of students enrolled, etc.).
